物联网

According to IDC, in 2025, there will be 41.6 billion connected IoT devices that will generate 79.4 zettabytes of data.*

据IDC统计数据，至2025年，将有416亿部IoT设备联网，同时将产生79.4 ZB数据。

The amount of data being generated each year is growing fast. You need the right products to capture and transmit the increasing data speeds and quantities. Is your data storage solution equipped to handle it?
每年数据产生速度正在变得越来越快，您将需要更加强有力的产品以提升数据捕获和传输的速度和效率。您的存储解决方案准备好了吗？

Transforming the microSD Experience 欢迎前来体验全新microSD存储卡

- Check out the new microSD Express card with PCIe interface
全新PCIe接口microSD Express存储卡展示
- Live demo with performance speed up to 985MB/s on Windows 10 PC
现场演示在Windows 10 PC环境下，实时传输速度可高达985MB/s
- JMicron USB 3.2 Gen2 microSD Express Card Reader Demo
第二代JMicron USB 3.2 microSD Express读卡器展示
